CJ & YJ REAR BUMPER INSTALLATION INSTRUCTIONS

WAR 515, 515C **50510, 50510C, 51510, 51510C**

Bumpers are designed to fit over existing rear cross member support.

1. Remove old bumperettes from vehicle.
2. Be sure that area where bumper will be mounted is flat and free of any damage.
3. Install new bumper with enclosed hardware. Tighten 7/16" nuts to 50ft / lbs. Re-torque after your initial test drive.

If you need further assistance installing your product, please contact us by email at techsupport@warriorproducts.com or call us at (888) 220-6861.
